Forward-looking statements and financial projections

Certain information or statements contained in this presentation or made in any meetings that are not statements of historical fact, including, without limitation, any statements preceded by, followed by or including words or phrases such as "targets," "believes," "expects," "aims," "intends," "may," "anticipates," "would," "could," "will", "might", "potential", "plan", "is designed to" or similar expressions or the negative thereof, constitute forward-looking statements, notwithstanding that such statements are not specifically identified.

Examples of forward-looking statements may include, among other things, statements relating to the Company/Group's strategies, plans, objectives, initiatives and targets, its businesses, outlook, political, economic or other conditions in Greece or elsewhere, the Company/Group's financial condition, results of operations, liquidity, capital resources and capital expenditures and development of markets and anticipated cost savings and synergies, as well as the intention and beliefs of the Company/Group and/or its management or directors concerning the foregoing. Forward-looking statements and financial projections are not guarantees of future performance and involve numerous known and unknown risks, uncertainties, both generic and specific, and assumptions which are difficult to predict and outside of the control of the Company/Group.

We have based these assumptions on information currently available to us at the date the statements are made, and if any one or more of these assumptions turn out to be incorrect, actual outcomes and results may differ materially from what is expressed in such forward-looking statements. While we do not know what impact any such differences may have on our business, if there are such differences, our future results of operations and financial condition, could be materially adversely affected. Therefore, you should not place undue reliance on these forward-looking statements and financial projections.

This presentation also includes certain forward-looking business and financial targets. The targets have been prepared by management in good faith, on the basis of certain assumptions which management believes are reasonable. However, there can be no assurance that the facts on which the assumptions are based will not change and, consequently, our ability to achieve these targets may be affected by a number of changes and risks, which are beyond our control and some of which could have an immediate impact on our earnings and/or financial position. No representation is made as to the reasonableness of the assumptions made in this presentation or the accuracy or completeness of any modelling, scenario analysis or back-testing. We do not undertake any obligation to update these targets, and we reserve the right to change our targets from time to time as we respond to real operating, financial and other macro-economic conditions.

The Company/Group has included certain non-IFRS financial measures in this presentation. These measurements may not be comparable to those of other companies. Reference to these non-IFRS financial measures should be considered in addition to IFRS financial measures but should not be considered a substitute for results that are presented in accordance with IFRS.
