HOW WE MAKE DECISIONS

Our consistent objective is to create value for all the stakeholders of the Group, with each one of us translating the strategic priorities responsibly and professionally, every single time.

Being oriented towards our values' system, we make proper decisions and always operate within the applicable employment framework.

In cases where the decision-making is not clear and there are doubts, we pose the following questions to ourselves, thus leading us to the appropriate solution:

- ✔✔✔ Have I checked/assessed the regulatory & employment framework?
- ✔✔✔ Have I taken into account the present Code and the applicable Policies of the Group?
- ✔✔✔ Have I weighed all the possible risks related to my decision?
- ✔✔✔ Have I taken into account the effect that my decision will have within and outside the Group?
- ✔✔✔ Am I certain that my decision will not affect the trust and will not expose the safety of the Piraeus stakeholders?
- ✔✔✔ Am I in a position to share my decision with a third party or even make it public?
- ✔✔✔ Would I maintain the same point of view for the decision, if another person had made it?

In case that the answer to any of the above questions is NO, we need to stop in order to gather more information, consult the responsible Units or/and ask guidance from our supervisor.
